[School of Post-Baccalaureate Medicine '13]

[University of the Philippines - Manila Pharmacy '08]

✿ Academic opportunities:

By having great amount of clinical cases, KMU is able to provide good clinical trainings and courses for all students. Also, KMU offers one month overseas clerkship opportunities with their sister schools. Therefore, I had the chance to visit and study in Seoul National University.

✿ Lots of extra-curricular opportunities:

International Federation of Medical Students Associations (IFMSA) / part-time work as a pharmacist and English tutor are some of the great extra-curricular activities I practiced.

✿ I highly recommend students to go abroad and study for a **broader perspective and life experience.**

Taiwan is a good place to live, learn and explore.

[Graduate Institute of Medicine—Master's Program '14]

- ◆ 來台灣升學的費用，其實跟在香港升學的費用差不多！
Tuition and living expenses in Taiwan are very similar to Hong Kong !
- ◆ 經由海外聯招，我進入國立師範大學僑生部，再分發至高醫呼吸治療學系，並接續就讀醫研所生理組碩士班！
By applying to University Entrance Committee For **Overseas Chinese Students**, I have studied my undergraduate and graduate programs in Kaohsiung Medical University in Taiwan !

◆大學時期因協助老師而接觸到研究所的實驗和動物實驗，引發了想繼續念研究所的動機，也想更進一步了解研究邏輯並提升自己。

The **lab experience** in undergraduate program gave me motivation to do research in related field so I decided to pursue my Master's degree in KMU.

◆有機會接觸到產學實作，最特別的是到台南工研院參觀雷射和3D列印技術，令我大開眼界。對未來邁向生技或是臨床研究相關的工作十分有幫助！

Through the **collaboration between industries and KMU**, I've learned about laser and 3D printing technology at Industrial Technology Research Institute, which helps me a lot for my **future career in biotechnology and clinical research** !

[Department of Psychology—Master's Program '17]

● Since there're few clinical psychological curriculums in Macau, I decide to apply and study my undergraduate program of **clinical psychological** in Taiwan.

● Teachers in KMU are friendly, they communicated with students frequently and sincerely. Also they encouraged students to talk and share ideas with each other, which formed a close and warm relationship between teachers and students. In year 2017, I **continued my Master's degree** in KMU.

● **There is an affiliated hospital beside KMU**, which provides a great number of case studies, and is **very helpful for my future academic career**.
