

Established in 1954, Kaohsiung Medical University (KMU) is the first private medical university in Taiwan and an important cradle for highly skilled physicians and medical-related specialists. There are wide ranges of high-standard medical-related courses, and the facilities in both basic and clinical research are varied and of good quality. Nowadays, the university consists of 7 colleges, which are College of Medicine, College of Dental Medicine, College of Pharmacy, College of Nursing, College of Health Sciences, College of Life Sciences, and College of Humanities and Social Sciences, and is affiliated with 5 hospitals that provide comprehensive health care to the public and offer integrated medical training to medical interns.

In the THE Impact Rankings 2022, KMU ranked 9th in the world and 2nd in Taiwan for the SDG 3 (Good health and well-being). KMU is also proud to be one of the world's leading research-intensive universities: the faculty from different Colleges was selected as the "World's Top 2% Scientists 2021" according to the search from Stanford University. Students are encouraged to engage with the faculty and get involved in research with the opportunities of research funding, from their freshman year to graduated study.
